POULTRYMEN'S ASSOCIATION
Votes to Adopt Seal with Which to Guarantee Eggs and Poultry Shipped to Market.

The Connecticut Poultrymen's association concluded its annual field meeting Storrs Wednesday forenoon. At Wednesday forenoon's session it unanimously voted to adopt a seal to be used by all the members of the association upon eggs and dressed poultry shipped to market, as a particular guarantee as to the contents of the package. The seal will be backed up by the Connecticut Poultrymen's association and any member violating his agreement to ship other than first class products in the egg and poultry line will have his seals taken away from him and will be expelled from membership in the association.

This action is taken as a result of the failure of the last general assembly to pass the bill for the purpose and is primarily to protect the members from having their rights infringed upon by the cold storage trusts.

The balance of Wednesday's programme was carried out as arranged. The two days' field meeting is said to have been one of the most successful and interesting held by the association. The late afternoon trains in the city conveyed the majority of the poultry fanciers to their homes in various sections of the state.

A Wide Gate.
President Taft's machine, wandering away from the main traveled highway, became hopelessly lost in a twisted, twisted road. It was driven this precious tale—and was at length halted in the worst mire within the country limits, which is saving measures to be taken.

The sun on the side of a hill was hailed from a great distance by the president, who wished to shake hands with him. The president, however, was too far away to do so. The president's chief magistrate was heard before the attention of the farmer was gained. The president pointed to a nearby gate and made an extra effort.

"Can I come in?" he shouted.
"I guess ye kin," bawled the farmer. "A load of hay let came through it."

Tipton Wake.
The oldest and most popular of the Black Country wakes is Tipton, and this week has seen it in full blast. The different wakes in Staffordshire have different origins, some of them rather obscure, but Tipton wake—and probably it is known to a comparatively few—has a distinct religious establishment. Wake Sunday is the anniversary of the consecration of the altar of St. Martin's, the mother church of the parish. It is, therefore, strange that in times past the wake should be associated with a saturnalia of anything but a religious character—drinking, dancing, and cock fighting—were the features of Tipton wake, and the orgie was kept up for a whole week.

Today the wake is taken advantage of for trips to the seaside and other places, while on the Wake ground there is the "fun of the fair"—innocent as compared with what it used to be. Some years ago an effort was made to bring all the Black Country wakes into line and have them all at one time—after the manner of Lancashire—and so save the continuous displacement of work, but it never came to anything. The wakes were so deeply rooted in the folk, who made their their calendar and dated every day after the wakes, that the effort was abandoned. The wakes are asked to name the three great festivals of the year, and promptly replied: "Easter, Whitsun, and Sedgely wake."

Dinner was served at 2.30 on the lawn and was simply fine. After dinner a musical and literary programme was carried out. A vote of thanks was given Mrs. Allen. She was assisted by Mrs. Fred J.
